

Network Ready Polarization Controller

New Product

- Superior Polarization Control Algorithm**
 - **Faster, more accurate and more robust control**
 - **Field trialed in carrier networks**
- 4 A/D Converter inputs for feedback signals**
- User control of Algorithm parameters and error signal**
- Applications include:**
 - **General lab use**
 - **PMD Compensation**
 - **Polarization Demultiplexing**
 - **Coherent detection**
- Technology licensing available for circuit boards**
