

**80389 - Close-up Lens**

FIND-R-SCOPE 80389 Close-up Lens attachment.

**The FIND-R-SCOPE® 80389** is a Close-up Lens attachment. This optional close-up lens allows for viewing in the range of 50.8 mm to 152.4 mm (2" to 6") from the target. At the 50.8 mm distance it provides  $\approx 2x$  magnification. It can be used for applications such as aligning and verifying fiber optic sources, etc.

This lens screws into the objective lenses of FIND-R-SCOPES that use the standard Infragon lens, such as models 84499, 84499-5.
