Ball-N-Socket Power Mount - mounting accessory Firmly supports devices with 1/4-20 mounting capability.

The 85684/85685/85686 Ball-N-Socket Power Mount are a Powerful hands-free accessory for the optical lab. Firmly supports IR Viewers, Cameras or other devices with 1/4-20 mounting capability. Great for use with all FIND-R-SCOPE[®] viewers and cameras. Can be bolted or clamped to your optical table. Viewer/camera can be attached using the 1/4-20 stud on top of the Ball-N-Socket Power Mount.

Dual ball and socket swivel heads permit quick, positive, multi-axis adjustments without backlash. Large handle makes tightening and loosening quick and easy. Solidly holds 5-lb loads.

Includes (2) 1/2 long, 1/4-20 Socket Head Cap Screws to mount to table.

This is a great little product!
