The FIND-R-SCOPE® 85829 iView Smart Phone Photo Adapter for iPhone, allows anyone with a FIND-R-SCOPE infrared viewer and an iPhone to take pictures of their infrared viewer image.

The FIND-R-SCOPE® 85829 iView Smart Phone Photo Adapter securely couples an iPhone 4S, 4, 3GS, 3G, or original iPhone to the viewer eyepiece so you can take pictures through your infrared or UV Viewer using the iPhone's built-in camera. The sturdy steel bracket allows the iPhone's camera lens to be positioned directly over the viewer's eyepiece for afocal eyepiece-projection photography.
